

Supporting Wellbeing

Our Minds Matter

The emotional wellbeing of our young people matters.

It's normal for young people to face emotional challenges growing up and their mental health is as important as their general physical health and wellbeing.

We recognise that everyone has a role to play in supporting young people to keep emotionally well and thinking about what might help when someone needs additional support with their mental health. We think it's important to think about what we do in a flexible way, with different layers of support and action from different people and services.

You can find out more by [clicking here](#).

There are five key ways of keeping emotionally well. [Click here](#) to find out more about some simple things we can all do to make a difference.

HandsOn

The HandsOn website (below) provides help and practical advice for supporting children and young people's mental health and emotional wellbeing. This website is for parents, carers and people who work with children and young people in Fife.
